

Structural Surveys Careers and Vacancies

JOB TITLE: Senior Structural Engineer

TEAM: Design

LOCATION: Sheffield

We are looking to recruit a Senior Structural Engineer within the Structural Surveys design team, who has extensive experience in structural design.

The role is a technical and operational lead for the regional design team, reporting to the Associate Director.

To be successful in the role you will need to demonstrate a commitment to innovation and a determination to provide a market leading service and product on behalf of Structural Surveys, part of the QuestGates Group.

Key Skills:

- Excellent degree of knowledge in Civil and/or Structural Engineering
- Excellent communication skills, both oral and written
- High degree of IT competency and literacy, including industry standard design software
- Demonstrate personal and professional integrity and lead by example
- Ability to work and contribute positively as part of a team and in isolation
- Ability to work accurately under pressure, adhering to deadlines and service standards
- A general understanding of structures and materials including steel, masonry, concrete and timber
- A general understanding of sustainability and environmental impact of building structures, including a working knowledge of embodied carbon calculations
- A good knowledge of Health & Safety in respect of construction activities
- Several years post graduate design experience, including residential projects
- MICE or MIStructE chartered status, desirable not essential

The role involves:

- To demonstrate a high level of technical quality and service delivery
- To provide exceptional customer service at all times
- To attend site inspections and site meetings

- To be an operational and technical lead for the design team, including design approvals, coaching, and mentoring
- To prepare structural design calculations across a range of market sectors including residential, educational, commercial, rail infrastructure and industrial
- To prepare design solutions in respect of building insurance claims, including fire, storm, explosion, flooding, and subsidence
- To deliver projects ranging from small residential properties, through to large commercial projects, ensuring commercial success, driving utilisation and profitability
- To assist with business development, to drive growth of the team including the development of the design team and providing progress reports
- To promote and support the TCF principles
- To ensure adherence to contractual/Client SLA's and KPI's

The Package:

- Competitive salary
- Enhanced contributory pension
- Performance related bonus
- Flexible benefits
- Enhanced family leave
- Electric car scheme
- Voluntary benefits schemes
- Birthday holiday
- Share purchase scheme with interest free loans

Hours of work:

Standard working week is 37.5 hours, Monday to Friday with flexibility to work from home /office.

Closing Date for Applications:

Close of business on Friday 18th October 2024.
